**\*4+1 Masters, 5<sup>th</sup> Year:** For those students who are completing their undergraduate degree program in the immediately preceding semester of their first graduate semester, the initial graduate level tuition and fee bill may be incorrect. Science and Engineering is not able to transfer you to the graduate division until your undergraduate degree has been certified. This occurs in late August for summer, December for fall, and in June for Spring. Your tuition and fees will adjust automatically after your undergraduate degree is certified and Science & Engineering has transferred you to the Masters degree program.
